There are 14 major allergens that appear in foods – while we don't list each ingredient or allergen on our menus, staff have been trained in this knowledge. Common sense is best practice and as a customer you also have a responsibility to inform us of your allergen or intolerance prior to ordering. We make all our meals from scratch but we also keep records of ingredient labelling wherever possible. Fish dishes may contain bones and some game dishes may contain shot.

Note for severe allergy sufferers: all dishes are prepared in the same kitchen so it's not possible to guarantee zero trace of a specific allergen.
